

As a player,  
I would like the  
option to play  
against 1-3 AI  
players. This way I  
can play without my  
friends – 8 points

As a developer,  
I want to modify the  
Player class to add  
a boomerang  
counter,  
So that it's simple to  
display how many  
boomerangs are left  
during each round –  
4 points

As a player,  
I want to see how  
many boomerangs I  
have left during  
each round on the  
GUI, So that I can  
know if I can  
boomerang or not  
– 4 points

As a Player,  
I want a boomerang  
system  
implemented to  
mess with other  
players' positions,  
so that I can make  
the game more  
interesting - 8  
points

As a developer,  
I want system tests  
so that I know the  
features  
implemented in this  
sprint are working.  
– 8 points

As a Scrum Master,  
I want to create the  
documentation  
needed for this  
deliverable. So that  
we can be graded.  
– 2 points

As a Player,  
I want my saved  
games to be  
incorruptible, so  
that no one can  
cheat. - 8 points

As a Dad,  
I want my draw to  
be the worst  
possible if I put my  
name as "Dad" so  
that my children can  
win. - 16 points
